Enhance the development of the personality of staff and students.

Achieve the status of an internationally acclaimed regional institute of research and development.

Enhance continuing professional programme in areas of national relevance.

Be a resources centre to enhance the quality of life in the region.

VICE-CHANCELLOR'S REVIEW – 2018

The Main Campus of Sabaragamuwa University is situated off Pambahinna Junction the vicinity of Belihuloya, 162 kilometers from Colombo along the Colombo - Badulla A4 Highway. The university spans over approximately 253 acres of land.

SUSL celebrated its 22nd anniversary as a National University in February, 2018. At present, it consists of eight (8) Faculties namely; the Faculty of Graduate Studies, Faculty of Agricultural Sciences, Faculty of Applied Sciences, Faculty of Geomatics, Faculty of Management Studies, Faculty of Social Sciences and Languages,

Faculty of Technology and Faculty of Medicine.

The most recent additions to the university; the faculties of Technology and Medicine are successfully functioning today. The Faculty of Technology was initially established within the University premises at Belihuloya making use of the unused spaces, where as the Faculty of Medicine was established in the Auditor General's Department Training Centre Batuhena, Kuruwita.

Initiating the preliminary work to construction of the Faculty Building Complex for the Faculty of Applied Sciences – Stage II; and the construction of Cafeteria for Walawa Hostel Complex and Main Library Premises can be identified as achievements of the university in terms of infrastructural development during the year. Furthermore, the construction of Para Clinical Building for the establishment of the Faculty of Medicine has been approved by the Ministry of Higher Education and the Cabinet.

The total number of internal students in the university in year 2018 was 4090 while the postgraduate enrolment numbered up to 121. In addition, 1693 students have enrolled for the courses conducted by the Centre for Open and Distance Learning (CODL). The General Convocation of the year 2017 was held on 25.01.2018 and 831 students were conferred their bachelor's degree along with 11 students who were conferred postgraduate degrees.

SUSL focuses on improving welfare and recreation facilities of students as well as staff. Accordingly, it provides hostel facilities for 95.2% of students. Further actions have been taken to increase the welfare facilities of students by providing Wi-Fi facility for academic purposes. Accommodation facilities are provided for the academic, administrative and non-academic staff based on the availability of resources of the university. In order to expand the residential facilities, the construction of a new housing complex in Nonperial was commenced in this year.

The university facilitates a research culture among the students and the academic staff members of the university. In that regard the university has financially assisted many academic staff members to disseminate their research findings at foreign research conferences.

Highly motivated and qualified Human Resources is a strength to the university. The total number of academic staff of the university in year 2018 was 240 while the administrative and executive staff enumerated at 38 allong with 376 non-academic staff. With the objective of developing the capabilities of the staff members, the university has organized 06 training programmes on various subjects for staff members through the Staff Development Centre (SDC). In addition to that, foreign training opportunities were given to academic and administrative staff members in 2018 to enhance the skills by exposing them to different working cultures.

I am pleased to state that the Faculty of Social Sciences and Languages of SUSL (Cluster 1) has been awarded an overall performance score of 80% and Grade “A” for each of the five Degree programmes. The General Degree Programme of the Faculty of Social Sciences and Languages has been awarded an overall performance score of 80.2% and Grade “A”. Site Evaluation based Self-Assessment Report (SCR) for all 7 degree programmes of the Faculty of Management Studies cluster 1,2 and 3 also received Grade “A”. Thus, year 2018 marked many heights for Sabaragamuwa University of Sri Lanka.

1. THE UNIVERSITY

1.1 HISTORY OF THE UNIVERSITY

The history of Sabaragamuwa University of Sri Lanka (SUSL) can be traced back to 1991 when it was initially established as an Affiliated University College at Belihuloya. In 1995, a committee was appointed by the Minister of Education and Higher Education to study the possibilities of re-structuring the Affiliated University Colleges in the country. In accordance with the recommendations made by the Committee, the government decided to upgrade Sabaragamuwa Affiliated University College to the status of a National University by amalgamating it with two other Affiliated University Colleges located at Rahangala and Buttala. They were renamed as Uva Campus of Sabaragamuwa University. Before the amalgamation, the Affiliated Colleges at Belihuloya and Buttala were affiliated to the University of Sri Jayewardenepura. Rahangala Affiliated University College was amalgamated with the University of Peradeniya. With the three amalgamated affiliated University Colleges, the Sabaragamuwa University was ceremonially declared open on February 2, 1996.

Subsequently, the Affiliated University Colleges at Rahangala and Buttala were converted into the Faculties of Agricultural Sciences and Applied Sciences and shifted to Belihuloya main campus in 2001 and 2008 respectively.

1.7 ORGANIZATIONAL STRUCTURE

2. FACULTIES

2.1 FACULTY OF GRADUATE STUDIES

2.1.1 BRIEF HISTORY

Sabaragamuwa University of Sri Lanka (SUSL) offers its graduate qualifications through the Faculty of Graduate Studies (FGS). The University Grants Commission at its 928th meeting held on November 9, 2015, granted the approval to establish the Faculty of Graduate Studies. Within its broad spectrum, FGS offers a wide range of postgraduate studies related to the fields of Agricultural Sciences, Computing & Information Systems, Geomatics, Humanities, Management, Physical & Natural Sciences, Social Sciences, Sports Sciences and Physical Education. The students who follow the graduate degree programmes available in these fields certainly benefit in widening their research based knowledge not only to enhance the career progression but also to redefine the existing ontologies to reach beyond national spatiotemporal horizons.

In the year 2018 the FGS offered three taught programmes leading to graduate qualifications at master level and research based higher degree programmes leading to MPhil and PhD qualifications. Altogether there were 241 active postgraduate students and another 100-110 prospective students have applied for the enrolment in 2019. Thus, the objective of the FGS is to provide an opportunity as well as to facilitate effective and efficient delivery of study programmes through quality teaching and research training to produce individuals with graduate qualifications in their respective disciplines who are competent in facing the challenges of development both locally and internationally.

2.2.3 DEGREE PROGRAMMES CONDUCTED BY THE FACULTY

The Faculty is composed of three Departments of study; Agribusiness Management, Export Agriculture and Livestock Production. The Faculty of Agricultural Sciences offers the following four year honours degree programmes.

- B.Sc. in Agricultural Sciences and Management (Students can specialize in four fields; Agribusiness Management, Commercial Horticulture, Plantation Agriculture and Livestock Production)
- B.Sc. in Food Business Management

The Department of Export Agriculture offers two academic modules in Plantation Agriculture and Horticulture. During the first four semesters (first 2 years), students need to follow core-courses for their general study on agriculture followed by specialization either in Plantation Agriculture, Horticulture, Livestock Production or Agribusiness Management for two more semesters (in the 3rd year). Students must select their field of specialization at the end of the second year, according to their preferences. Farm Practice, Computer Sciences and English courses are offered in the first three years and students must reach a satisfactory grade for each course in each semester to complete the degree. In addition, elective courses are offered during the final year and students must select four elective courses according to their preferences during the first semester of their final year (in the fourth year). The second semester of the final year is allocated for industrial training, which is a vital and specific component of the degree program and students must undertake a research in the specialized field. The medium of instruction of the degree program is English.

The Faculty organizes programs as the practical components of the degree programme in collaboration with farmers in the area to ensure that knowledge and skills are exchanged between students and farmers. As a result, the Faculty of Agricultural Sciences has developed close links with the surrounding communities. Furthermore, students are given an opportunity to visit various industries to gain exposure in operational aspects of the industry and research organizations.

2.3 FACULTY OF APPLIED SCIENCES

2.3.1 BRIEF HISTORY:

The Faculty of Applied Sciences of Sabaragamuwa University of Sri Lanka was initially started as the Buttala Affiliated University College (BAUC) on 21st June 1993. The BAUC offered two diploma courses, one in Food Science and Technology and the other in English Language. With the elevation of the Affiliated University Colleges to fully fledged national Universities in early 1996, three Affiliated University Colleges; Sabaragamuwa Affiliated University College, Uva Affiliated University College and Buttala Affiliated University College were amalgamated to form the Sabaragamuwa University of Sri Lanka and the BAUC became the Faculty of Applied Sciences of the Sabaragamuwa University of Sri Lanka.

With effect from March 2008, the faculty has been relocated to the main university premises in Belihuloya.

2.3.3 DEGREE PROGRAMS CONDUCTED BY THE FACULTY

The Faculty comprises five departments: Department of Natural Resources, Department of Physical Sciences & Technology, Department of Food Science & Technology, Department of Computing & Information Systems and Department of Sport Science and Physical Education.

The Faculty offers B.Sc. (Special) degree programs in Food Science and Technology, Environmental Sciences and Natural Resource Management, Chemical Technology, Computer Science and Technology, Applied Physics, Computing and Information Systems, Sport Sciences and Management and Physical Education for the students who gain direct entry to the Faculty on the basis of their performance at the GCE (Advanced Level) examination.

The degree programs are designed to be four-year degree programs with an exit point at three years for the students who graduate with a general degree in B.Sc. in Physical Sciences and Technology and Environmental Sciences and Management. The rest of the degree programs are strictly four-year degree programs.

The selection of the students for the B.Sc. degree programs in Sport Sciences and Management and Physical Education is done on the basis of G.C.E. (A/L) results as well as the performance at a selection test (written examination). The students who wish to get enrolled for the degree programs in Sport Sciences and Management and Physical Education are also required to face an examination for physical fitness in addition to the selection test. However, the selection procedure has been altered by the UGC through a circular and there will not be any further aptitude tests for the recruitment of undergraduates for the Faculty.

All degree programs offered through the faculty are designed to cater to the current job trends and demands both nationally and internationally. They are conducted exclusively in English. These degree programs are designed to provide interdisciplinary knowledge by incorporating subjects such as Computer Science, Economics, Management, etc. This feature has scaffolded our students to perform well once graduated, serving a wider field than being specific and limited to their field of specialization.

Apart from the academic activities, the Faculty also contributes to the development of the community and the nation through extension and knowledge dissemination programs. The staff and the students participate in such activities annually.

Degree Programs offered by the Faculty of Applied Sciences

Bachelor of Science Honours in Information Systems

Bachelor of Science Honours in Food Science and Technology

Bachelor of Science in Environmental Sciences and Natural Resource Management

Bachelor of Science Honours in Environmental Sciences and Natural Resource Management

Bachelor of Science in Physical Sciences

Bachelor of Science Honours in Applied Physics
Bachelor of Science Honours in Chemical Technology
Bachelor of Science Honours in Computer Science and Technology
Bachelor of Science Honours in Physical Education
Bachelor of Science Honours in Sport Sciences and Management

Department of Computing and Information Systems

The Department of Computing and Information Systems which offers a B.Sc. Honours in Information Systems was established on 01st March 2011, although the Degree programme was initiated back in 2008. The curriculum is specifically designed to produce skilled graduates in Computing as well as Information Technology. At present the department has three well established laboratories and the student capacity of the department is 350.

The demand for the above degree programme has greatly increased thorough the years and the annual intake has reached the maximum capacity of 100 students per batch. The department has close collaborations with private computer industries to obtain technical support in conducting lectures and practicals as well as to provide opportunities for the undergraduates to carry out their mini projects and final year projects. This has also increased the opportunity for the undergraduates to secure job opportunities immediately after graduation. The staff of the department consists of six senior lecturers, one lecturer, five probationary lecturers and a temporary lecturer.

Department of Food Science and Technology

The Department of Food Science and Technology was established in 2005 even though the B.Sc. Honours in Food Science and Technology has been offered under the Department of Natural Resources since the inception of the Faculty in 1996. The range of study areas includes Food Science Technology core, Applied Food Technologies, General Sciences, Statistics, Computer Science & Technology, Food Marketing and courses in scientific communication and career development. The degree program is designed to care to the students who wish to pursue professional careers in the field of Food Science and Technology. The knowledge and skills gained from the degree program enable the graduates to cater to the growing demand for Food Scientists & Technologists in the government as well as the private sector, locally and internationally. The degree also paves an excellent path for postgraduate studies in related disciplines of Food Science and Technology. At present, the department's academic staff comprises one professor, seven senior lecturers and two probationary lecturers. There are several eminent senior academics and industrial experts who contribute as visiting staff. The department has five well-equipped laboratories for conducting undergraduate lab sessions and relevant research, namely, Food Analysis Laboratory, Food Microbiology Laboratory, Food Processing Laboratory, Meat Processing Laboratory and Dairy Processing Laboratory and the current student capacity of the department is 143.

Department of Natural Resources

The Department of Natural Resources was established in 1996 offering a B.Sc. General degree in Natural Resources. The degree program offered by the department is designed to cater to the current job market in the fields of Environmental Protection, Natural Resource Management and Conservation, Biodiversity Conservation and Management, Environmental Advocacy and Ecology both in Sri Lanka and around the world.

In 2006, the Degree Programme which was initially offered as B.Sc. in Natural Resources as a three-year general degree program was upgraded and restructured to offer a degree programme in Environmental Science and Natural Resources Management, which has improved the job opportunities for the graduates. Currently the degree program is oriented in three major streams; Environmental Science, Biological Science and Earth Science while awarding two degree programs as B.Sc. Honours in Environmental Science and Natural Resources Management – 4 years and B.Sc. in Environmental Science and Natural Resources Management – 3 years. The degree also paves an excellent path for postgraduate studies. The Department has the capacity to cater to sixty additional students per year. At present, the academic staff of the department consists of two professors, six senior lecturers, a lecturer and a probationary lecturer.

Department of Physical Sciences & Technology

The Department of Physical Sciences & Technology conducts degree courses in three major disciplines; namely, Chemical Technology, Applied Physics and Computer Science & Technology. Mathematics, Statistics, and Management Studies are conducted as supportive courses for the programme. The Department offers four-degree programs namely: B.Sc. Honours in Chemical Technology (Duration: 4 years), B.Sc. Honours in Computer Science & Technology (Duration: 4 years) B.Sc. Honours in Applied Physics (Duration: 4 years) and B.Sc. in Physical Sciences (Duration: 3 years).

All theoretical course units offered by the department are heavily supported by a practical component which provides the preliminary experience to perform confidently. The Mini projects conducted throughout the third and the fourth academic years stimulate the students creative and innovative thinking. The Final year project (research or industrial training) for one entire semester exposes the undergraduates to the working environment and provides hand on experience in the industry prior to graduation. The university environment and the teaching programs have been designed to establish this goal and to produce specialists in their respective fields. Additionally, it is also creditable that the department offers the only B.Sc. Honours in Applied Physics in the entire University System in the country. The department has 6 well-equipped laboratories namely; Physics Laboratory, Chemistry Laboratory I, Chemistry Laboratory II, Chemistry Research Laboratory and Two Computer Laboratories. The student capacity of the department is 162. The staff of the department consists of three professors, eight senior lecturers, seven probationary lecturers and an instructor.

Department of Sport Sciences and Physical Education

Two-degree programs namely B.Sc. Honours in Sport Sciences & Management and B.Sc. Honours in Physical Education have been offered by the Faculty of Applied Sciences since 2008. The Department of Sport Sciences and Physical Education was established on 01st March 2011. The courses under the Sport Sciences & Management degree programme are specially designed to produce graduates with basic scientific sport skills and management skills required for sports teaching at primary, secondary and tertiary education levels and at other industries and organizations. The B.Sc. Honours in Physical Education is specially designed to produce graduates who are competent in the scientific aspect of physical education activities and practices. The duration of the degree programs is four years and at present there is a great demand for the degree programme which is apparent from the annually increasing number of student intake. At present the intake has reached the maximum capacity. Both degree programs are well scaffolded by practical activities and projects which enable the production of skilled and competent graduates within four years. The department also works in collaboration with many sports organizations to enable the students to participate in national and international gaming competitions and coaching programs. The department has two well equipped laboratories namely; Exercise biochemistry Laboratory and Research Laboratory and the student capacity of the department is 463. The staff comprises of three senior lecturers, eleven probationary lecturers, one instructor and two temporary lecturers. The service of eminent sport specialist is also obtained to conduct both practical and theory courses for the students.

2.4 FACULTY OF GEOMATICS

2.4.1 BRIEF HISTORY:

The Faculty of Geomatics was established in 2004 and is one of the five faculties of the Sabaragamuwa University of Sri Lanka. It is the successor to the Department of Surveying Sciences, which introduced the B.Sc. (Surveying Sciences) Degree Programme in 1997. This was the first time in the history of the university system in Sri Lanka that such a degree programme was introduced by a university, fulfilling a much felt need of the country. The Degree Programme is a four-year course leading to a special degree. The first batch of students was admitted to the degree programme in 1997 and graduated in 2002.

2.4.2 FACULTY MANAGEMENT

Dean

Dr. H.M. Indika Prasanna

BScHons (Surveying Sciences) (SUSL), MPhil (Geodesy) (SJP), PhD (Geodesy) The Polytechnic University, Hong Kong

Heads

Department of Surveying and Geodesy

Dr. H.R.S. Bandara

BSc, MSc, PhD (Civil Engineering) (Monash University, Australiya)
(From March 2018)

Dr. D.R. Welikanna

BSc, MSc, PhD (Kyoto University, Japan)
(Up to February 2018)

Department of Remote Sensing GIS

Dr. G.S.N. Perera

BSc, MSc, PhD (Engineering) (Germany)

Assistant Registrar

Mrs. H.H.K.N. Dharmasiri

BScHons (PDN), MSc (PGIA, PDN)

2.4.3 DEGREE PROGRAMMES CONDUCTED BY THE FACULTY

The faculty offers BSc Surveying Sciences degree in five areas of Specialization. They are:

- 1) Bachelor of Science Honours in Surveying Sciences in Surveying & Geodesy
- 2) Bachelor of Science Honours in Surveying Sciences in Land Management
- 3) Bachelor of Science Honours in Surveying Sciences in Hydrographic Surveying
- 4) Bachelor of Science Honours in Surveying Sciences in Remote Sensing
- 5) Bachelor of Science Honours in Surveying Sciences in Geographic Information System

2.5. FACULTY OF MANAGEMENT STUDIES

2.5.1 BRIEF HISTORY

The Faculty of Business Studies commenced its' programmes by offering a three-year degree under the Department of Accountancy & Finance and the Department of Business Management in September 1996. After the completion of the Foundation Year and two specialization years, a Bachelor of Science degree could be obtained in Financial Management, Business Management, Marketing Management, Tourism Management and graduated in the years of 1997, 1998, 1999, 2000, 2001 and 2002. At present, the Faculty has seven Degree Programs, including BSc Honours in Banking & Insurance, BSc Honours in Eco-Business Management and BSc Honours in Hospitality Management.

The Faculty of Business Studies was renamed as the Faculty of Management Studies with the approval of the University Grants Commission (UGC) in 2003. The duration of the degree Programmes, BSc in Business Studies conducted by the Faculty of Business Studies was also extended from three to four years with the approval of the UGC in the same year.

Currently, the Faculty of Management Studies comprises four departments; Department of Accountancy & Finance, Department of Business Management, Department of Marketing Management and Department of Tourism Management.

2.5.2 FACULTY MANAGEMENT

2.5.3 DEGREE PROGRAMMES CONDUCTED BY THE FACULTY

The Faculty of Management Studies comprises four departments; Department of Accountancy & Finance, Department of Business Management, Department of Marketing Management and Department of Tourism Management. Currently, seven honours degree programmes are offered by these four departments for the students who gain direct entry to the faculty on the basis of their performance at the GCE (Advanced Level) Examination.

Department	Degree Programme(s)
Department of Business Management	B.Sc. Honours in Business Management
Department of Marketing Management	B.Sc. Honours in Marketing Management
Department of Accountancy & Finance	B.Sc. Honours in Financial Management B.Sc. Honours in Banking & Insurance
Department of Tourism Management	B.Sc. Honours in Tourism Management B.Sc. Honours in Eco-Business Management B.Sc. Honours in Hospitality Management

Presently, the student allocation for each degree programme is decided by considering the students' preference and their z-score, at the commencement of the degree programmes.

In keeping with the new curriculum, specialization programmes are started in the first year itself. However, there are common subjects that are taught for all the first year students. The programmes run for four years with eight semesters. Students must complete a four-month Industrial Training and a Project Report or a Dissertation in the Fourth Year Second Semester for which six credits are allocated. The total number of credits is 120+ for each degree programme.

All the above degree programmes offered by the Faculty were reviewed by the Quality Assurance and Accreditation Council of the University Grants Commission in 2018 and the Faculty was awarded 'A' Grades for all the Degree Programmes.

2.6 FACULTY OF MEDICINE

2.6.1 BRIEF HISTORY

The Faculty of Medicine of Sabaragamuwa University of Sri Lanka is the latest addition to the chain of Medical Faculties in Sri Lanka. It was established in the year 2018 under Gazette Notice No. 2082/32 of August 01, 2018. It became the 8th Faculty of the Sabaragamuwa University of Sri Lanka. The medical profession caters to one of the most crucial needs of the society, therefore, it stands to reason that medical degrees are among the most challenging and competitive qualifications to pursue. This Faculty comprises of 15 departments which are dedicated to achieving all aspects of its academic mission and objectives. The academic elements in the MBBS Degree Program are based on four main disciplinary pillars; theoretical education, clinical care, community engagement and research. The Faculty of Medicine is established in Ratnapura where the first year of the degree program will be conducted at the Batuhena Faculty premises. A new faculty building and a professorial unit are currently being constructed in the land adjacent to the Provincial General Hospital, Ratnapura, which would serve as the teaching hospital for the Faculty of Medicine providing all clinical training facilities for the students. The Faculty would accommodate 75 students per intake and will be furnished with all the facilities required to conduct the medical academic programs which are established.

- Inaugural opening was held on 17th January 2018, 1st Batch of Students – 69 Nos,
- Orientation Program 21st of January – 26th of February 2019
- Commencement of the academic program was on 05th of March, 2019

2.6.3 DEGREE PROGRAMMES CONDUCTED BY THE FACULTY

MBBS – Bachelor of Medicine and Bachelor of Surgery.

LEARNING OUTCOMES

The Science and Practice of Medicine

- Apply scientific principles and a multidisciplinary body of scientific knowledge to the diagnosis, management, and prevention of clinical problems.
- Understand the variation in the expression of health and disease through critical evaluation of biomedical research.

Clinical Competence

- Obtain a sufficient level of medical knowledge to understand the basic facts, concepts, and principles essential to competent medical practice.
- Exhibit the highest level of effective and efficient performance in data gathering, organization, interpretation and clinical decision making in the prevention, diagnosis, and management of diseases.

The Social Context of Medicine

- Understand and respond to factors that influence the social, behavioural, and economical factors in health, disease and medical care.

Communication

- Demonstrate effective and compassionate interpersonal communication skills toward patients and families necessary to form and sustain effective medical care.
- Present information and ideas in an organized and clear manner to educate or inform patients, families, colleagues and community.

Professionalism

- Display the personal attributes of compassion, honesty and integrity in relationship with patients, families, and the medical community.
- Adhere to the highest ethical standards of judgment and conduct as it applies to the healthcare milieu.
- Demonstrate a critical self-appraisal in his/her knowledge and practice of medicine, as well as receive and give constructive appraisal to/from patients, families, colleagues and other healthcare professionals.

Lifelong Learning

- Understand the limits of personal knowledge and experience and demonstrate the intellectual curiosity to actively pursue the acquisition of new knowledge and skills necessary to refine and improve his/her medical practice or to contribute to the scientific body of medical knowledge.

OBJECTIVES OF THE DEGREE

- To provide medical education at bachelors' level with the highest standard for the medical professionals of tomorrow, who will be generously motivated to serve people in the country with sympathy, commitment and proficiency in satisfying their health care needs.
- To satisfy the Government's policy to raise healthcare standards of the country and to increase the number of the highest qualified medical professionals according to the population in the country.
- To make a significant contribution to creating more opportunities for students from the Advanced Level Bio-Science Stream in underserved, rural and urban populations to follow an MBBS Degree Programme.

The Faculty of Medicine consists of following departments.

1. Department of Anatomy
2. Department of Biochemistry

3. Department of Physiology
4. Department of Parasitology
5. Department of Microbiology
6. Department of Forensic Medicine and Toxicology
7. Department of Pathology
8. Department of Community Medicine
9. Department of Family Medicine
10. Department of Pharmacology
11. Department of Surgery
12. Department of Medicine
13. Department of Pediatrics
14. Department of Obstetrics and Gynaecology
15. Department of Psychiatry

2.7 FACULTY OF SOCIAL SCIENCES AND LANGUAGES

2.7.1 BRIEF HISTORY

The Faculty of Social Sciences and Languages was established along with the University in 1996. The Faculty initially possessed two Departments of studies i.e. the Department of Languages and the Department of Social Sciences. The third Department of the Faculty, The Department of English Language Teaching was initiated in 2004 while the fourth, The Department of Economics and Statistics was commenced in 2009. The Department of Geography and Environmental Management was established as the fifth Department in 2015. The Faculty began its academic operations in November 1996 with the intake of students from the former affiliated University College, who were permitted, with their Diplomas in English, to study for a degree after two years. The Faculty started to register students with Advanced Level qualification only from the year 1998.

In pursuit of its vision and mission, the Faculty offers Honors Degrees through its Departments. Deviating from the initial concept of three year Honors degrees in the Faculty, in 2007, four-year Honors Degree Programs in Economics, Statistics, Geography, Political Science, Sociology and Anthropology were introduced in addition to its three year Social Sciences Honors Degree Program. Four-year Honors Degree Programs in Sinhala, Tamil, English, German, Japanese, Chinese and Hindi have also been introduced with effect from 2013. In 2014, the Faculty introduced Bachelor of Arts Honors in Information and Communication Technology and in 2015, Bachelor of Arts Honors in Translation Studies. At present, the Faculty offers four-year Honors Degrees and three-year General Degrees only.

The Faculty of Social Sciences and Languages prepares students for professional careers by providing them with a broad understanding of the humanistic tradition in combination with a sound knowledge of subjects in several disciplines. Its programs emphasize the ability to apply this knowledge to problems and tasks in the contemporary world of work. The Faculty strive to develop students' capacity for independent and critical thought, logical analysis, effective communication, and informed participation in teamwork. Therefore, the Bachelor of Arts program integrates classroom work and students' independent reading and writing with hands-on research and project work.

2.7.3 DEGREE PROGRAMS CONDUCTED BY THE FACULTY

The Faculty of Social Sciences and Languages consists of five Departments namely; The Department of Economics and Statistics, The Department of Geography & Environmental Management, The Department of Languages, The Department of Social Sciences and The Department of English Language Teaching.

The Faculty offers the following Degree Programs:

1. Bachelor of Arts (Special) Degree (Four years)
2. Bachelor of Arts General Degree (Three years)

The Faculty conducts the BA General Degree program with the support of all the Departments in the Faculty, while the BA (Special) Degrees in relevant subjects are conducted as follows:

DEPARTMENT OF ECONOMICS AND STATISTICS

Bachelor of Arts (Special) in Economics
Bachelor of Arts (Special) in Statistics
Bachelor of Arts (Special) in Information and Communication Technology
(Offered in English Medium Only)

DEPARTMENT OF GEOGRAPHY & ENVIRONMENTAL MANAGEMENT

Bachelor of Arts (Special) in Geography

DEPARTMENT OF LANGUAGES

Bachelor of Arts (Special) in Sinhala
Bachelor of Arts (Special) in Tamil
Bachelor of Arts (Special) in English
Bachelor of Arts (Special) in German
Bachelor of Arts (Special) in Japanese
Bachelor of Arts (Special) in Chinese
Bachelor of Arts (Special) in Hindi
Bachelor of Arts (Special) in Translation Studies

DEPARTMENT OF SOCIAL SCIENCES

Bachelor of Arts (Special) in Political Science
Bachelor of Arts (Special) in Sociology

DEPARTMENT OF ENGLISH LANGUAGE TEACHING (DELT)

The Department of English Language Teaching (DELT) offers Teaching English as a Second Language (ESL) as a major/minor subject and English Language Courses throughout students' university career.

2.8 FACULTY OF TECHNOLOGY

2.8.1 BRIEF HISTORY

By virtue of the powers vested in Lakshman Kiriella, Minister of Higher Education and Highways by Section 27(1) of the Universities Act, No. 16 of 1978, on the recommendation of the University Grants Commission, by the order under Section 21 of the Universities Act, published in Gazette Extraordinary No. 896/2 of November 07, 1995 which specifies the Faculties and Departments of the Sabaragamuwa University of Sri Lanka, the Faculty of Technology and the corresponding 2 departments in it which are Department of Engineering Technology and Department of Biosystems Technology were legally established.

3. TEACHING RESOURCES

3.1 THE LIBRARY

3.1.1 DESCRIPTION OF THE LIBRARY

The Main Library provides its services for the entire University to achieve the standard of excellence in their academic programs. The Management Faculty Library serves the needs of the Faculty of Management Studies while the Agricultural Sciences Library serves the needs of the Faculty of Agricultural Sciences. The collections and services of the library are designed to match the needs that range from basic support of the curriculum to the advanced research requirements of patrons.

The SUSL Libraries deliver customer focused quality information products, services and programmes, creatively adjust to changing information needs and innovatively respond to new challenges at national and international level.

The collection of books of all libraries in the end of 2018 was approximately 125,000 including purchased books, books donated to the Library and pamphlets.

The SUSL Library uses KOHA; the open source software for library automation, to ensure its efficiency. The collection has been organized as Lending Section, Reference Section, Permanent Reference Section, Periodical Section, Other Collections & Past Paper Collections.

3.1.2 IN HOUSE ACTIVITIES

Library Committee

The Library Committee; a Sub-committee of the Senate, is the principal management body of the Sabaragamuwa University Library. The Library Committee is scheduled to be held on every month regularly. The Librarian plays the role of the Secretary of the Committee. The Chairman of the committee is the Vice Chancellor of the University.

Objectives of the Libraries

In fulfilling the main objective of developing the university through self-studies and self-improvement, the university libraries in the country play a major role. The Sabaragamuwa University has three libraries: the library of the Faculty of Management Studies, the library of the Faculty of Agricultural Sciences and the Main Library. The main library serves the needs of three faculties at the moment - the Faculty of Social Sciences and Languages, the Faculty of Applied Sciences, and the Faculty of Geomatics. Those of the Faculty of Agricultural Sciences and Management Studies serve the needs of their undergraduates. At present SUSL is actively involved in developing e-information provision.

3.2 CENTRE FOR COMPUTER STUDIES

3.2.1 INTRODUCTION

The Centre for Computer Studies provides many IT related academic and technical services to the Sabaragamuwa University of Sri Lanka. The centre has been conducting and supervising academic programmes of different faculties, preparing IT curricula and providing training for academic and non-academic staff as well as academic supportive staff. The CCS has been providing the university web service and email facility for the entire university community. Campus-wide internet and networking facility, virtual learning environment with other network services, e-learning facility and hardware software maintenance services are the technical services provided by the Centre for Computer Studies.

3.2.2 HISTORY

The history of Sabaragamuwa University Computer Centre goes back to the time of the inauguration of the Affiliated University College (AUC) of Sabaragamuwa Province in 1991. It was first established at one of the residential building then owned by Samanalawewa Hydro Electrical Power Project and now D1-4 quarters of Sabaragamuwa University of Sri Lanka. Initially, it was equipped with 10 numbers of **Tatung** 286 computers featuring 1Mb RAM, 40MB Hard disks and an **OKI** 9-pin dot-matrix printer and at the time of the inauguration of AUC, late Hon. President Ranasinghe Premadasa unveiled the plaque of the centre.

During the early years AUC enrolled students for Diploma programmes and conducted three diploma courses called Diploma in Accounting & Finance, Diploma in Tourism Management and Diploma in English. The **Core Course of Computing** offered by the computer centre was a compulsory component in obtaining the diploma produced by all programmes.

After some times, with the donation of Rs. 15,000/= from the Balangoda District Judge who launched a program to donate funds for social work from the fines collected from the drugs victims, initiatives were taken to start the construction of the existing computer centre building with the help of the staff, students and villagers via “Shramadana Campaigns” and finally the Centre was completed with the help of government funds. It was the first building constructed simultaneous with the old auditorium for the AUC in addition to the buildings acquired from the Samanalawewa Project.

Initially one staff member was recruited to the computer centre as an Instructor-in-Computer-Technology for conducting the lectures and practicals for the core courses. Meanwhile, two other instructors were recruited to the computer centre cadre to extend the work it carried out and it was the only centre which had an approved cadre in the AUC system.

After upgrading the AUC into a full-fledged national university as Sabaragamuwa University of Sri Lanka in 1996, computer centre started to render its services to the different degree programs especially for non-IT faculties by means of designing and preparing course

materials for IT related subjects and conducting lectures and practical classes. Further, the Centre contributed technological knowledge to preparing and evaluating tender documents for purchasing of computers and other ICT related equipment for the university and training of clerical staff of the university for effectively use of ICT for their day to day works as well as helping academic staff for preparing their postgraduate thesis and in preparing teaching materials etc.

With the expansion of the university and its functions, computer centre was renamed as **Centre for Computer Studies** and re-organized under a Director and started offering assistance for conducting ICT related courses for the degree programmes especially for the Faculty of Management Studies and the Faculty of Social Sciences & Language. Another building was constructed adjacent to the existing centre to broaden its services. At the same time university Local Area Network was planned, commissioned and connected to the Internet via LEARN and the Centre started providing and maintaining the Internet and network services to the entire university community. Launching Sabaragamuwa University Web Site and providing E-Learning environment were some land marking services offered by the Centre.

To strengthen the services provided by the Centre for Computer Studies the cadre provisions have been increased and at present, the below mentioned cadres are allocated to it according to the 2012 approved cadre list of UGC.

Lecturer		Approved	Existing
Senior Lecturer Gr. II	U-AC 3(II)	2	3
Lecturer	U-AC 3(III)	2	1

Mr. Sanjeewa and Mr. Janaka are currently involved in doing such work as well as to report about the faultier of equipment's to the respective authorities to request permission to repair them.

3.2.6 PRESENT STATUS

Presently, upon request of the different faculties, the academic services provided by the centre are mainly limed to conducting the IT Degree programme and computer minor programme of the Faculty of Social Sciences & Languages, some IT related subjects and practical components of the different departments of Faculty of Management Studies and to for the degree program in Computing and Information System of the Faculty of Applied Sciences. Other IT services such as Internet and web service are provided for entire university community by the centre. Other than that, computer centre provides maintenance-support for services running in the network which are installed by other parties such as library system, IP Phone system, IP Camera system, Wireless networks etc.

At present most of the faculties have their own complexes and they have their own computer centres within faculty premises for conducting their IT related academic programs. Therefore, there is no longer a need for using the existing buildings of the Centre for Computer Studies for conducting their program, instead they can be utilized to widen the services offered by the Centre such as conducting training programmes for non-academic and administrative staff as well as assisting the academic staff to fulfilling their IT-related needs. Nevertheless, Staff development centre also conducts a training programme in the university.

The Centre for Computer Studies supervises all computer related academic activities in these five computer centres and maintains the campus-wide network including all the servers required to provide network services such as web e-learning, DNS, email, library system, student information service and network troubleshooting services.

In year of 2013, infrastructure facilities and academic programs related with IT have further improved with the aid of allocations from the consolidated fund by the Sabaragamuwa University of Sri Lanka. With this fund, the university managed to increase the Internet bandwidth from 20Mbps to 100Mbps and increased the number of computer facilities to all academic and administrative staff members at their work places.

Due to the high demand of the internet usage of the university, internet providers requested to increase the bandwidth up to 225 Mbps. Accordingly, the computer centre proposed to increase the internal bandwidth of the fibre backbone.

Free Wi-Fi areas were implemented for the students inside the university to provide a better learning environment to them. According to that initiative all the faculties have access to the Wi-Fi facility.

Further, according to its annual plan, the University purchased more than 200 new computers and the centre helps to purchase and implement such computers in the university network.

Campus-Wide Network: Our campus-wide Local Area Network is run and maintained by the Centre for Computer Studies. It is administrated by our Assistant Network Managers within the server room. The server room consists of CISCO routers, proxy server, DNS server, CISCO switches, web server, e-learning sever, virus guard server (centralized server) etc. Performance of the network functions and the E-learning system are increased by upgrading the three servers namely; Proxy, DNS and E-learning during the year 2014. Separating and partitioning of the server room from the existing computer lab assured physical security and the easiness of maintenance of the servers. Also by commissioning the alternative power generating system using a 20KVA standby generator and 20KVA UPS system, availability of network functions are guaranteed during all times.

All the Seven faculties are now inter-connected with fibre optic backbone and willing to upgrade to the backbone in next year. At present our commodity Internet band with is 225Mbps and the physical link is capable of handling signals of 100Mbps bandwidth.

3.2.7 GOALS OF THE YEAR 2019:

- I. Requiring new installation and supply internet connection for the Faculty of Medicine; Wi-Fi network and LAN network.
- II. Network installation and supplying internet connection for the Faculty of Graduate Studies.

- III. Enhancing and installing new Wi-Fi facility for the Faculty of Technology.
- IV. New network installation for the computer lab of the Department of Geography (FSSL).
- V. New installation and repair of the fibre connection of the Students' Affairs Division.
- VI. New network installation for the Mungasthenna building complex of the Faculty of Agriculture.

3.2.8 GOALS ACHIEVED DURING THE YEAR:

- I. Fixed and managed the manageable switches of the system of the University Local Area Network.
- II. Updated back bone of the fibre multimode to single mode and finished the project resulting more band width to the faculties.
- III. Enhanced the IP phone system within the University and provided error free intercom facility to the University staff.
- IV. Updated the website and improved the University web ranking from 14th to 11th within Sri Lankan Universities.
- V. Provided facilities and services to the outside parties such as CDB bank, Navy Camp in Trincomalee and Diyathalawa department of survey and provided an opportunity for the University to earn money.
- VI. Upgraded the virus guard of the computers and laptops which are provided by the University.
- VII. Performed the technical evaluation and analysis of the infrastructure development of newly established faculties such as Faculty of Medicine, Faculty of Technology and Faculty of Graduate Studies and proposed new networks and Wi-Fi areas for the Faculty of Technology and the Faculty of Agricultural Sciences.
- VIII. Implemented the computer network of the Faculty of Graduate Studies.
- IX. Provided opportunities to practical trainees from several organizations and trained them successfully.
- X. Conducted workshops and exams for recruiting and promoting staff of the University.
- XI. Analysed, designed and implemented several webcast dynamic applications to enhance the University services for students and staff members.
- XII. Started to implement IPV 06 and main servers.
- XIII. Expanded the EDU ROM network within the University.
- XIV. Designed and implemented dynamic web applications to ensure efficiency of the requests of repairing and maintaining the technical items within the University.
- XV. Obtained services from CRKD and used it for providing services for the University.

4. STUDY CENTRES

4.1 CAREER GUIDANCE UNIT

Programmes Conducted by the Career Guidance Unit -2018

Development of soft-skills and employability of undergraduates

Career Guidance Unit, recognizing the gaps between the skills of University graduates and real world of work, initiated a project to interact with the cooperative sector of the country to understand the gaps between our graduates' skills and employer needs. The findings will be assessed and incorporate into academic work of the undergraduates in the years to come.

The Need of a Personal Vision and Mission for a successful University Life

Career Guidance Unit (CGU) of the University successfully conducted a lecture on "**The Need of the Personal Vision and Mission for a Successful University Life**" upon invitation of the Students Counselling Centre of the university on 22nd February 2018 at the Auditorium of the Faculty of Social Sciences and Languages. The lecture was conducted by Mr. Deepal Wijayasekara, the Career Advisor of the University.

Entrepreneurship Development Programme 1 – 2018

The Career Guidance Unit of the university successfully launched an Entrepreneurship Development Programme in collaboration with the National Entrepreneurship Development Authority (NEDA) of Sri Lanka. The initial programme was held on 06th March at the Auditorium of the Faculty of Management Studies. This introductory programme was conducted by Mr. Lakshman Wijeyewardena, the Director of NEDA. The purpose of the programme is to promote entrepreneurship development among SUSL undergraduates. The programme has been named "Upadhidari Viyawasayaka Udanaya". Mr. Sameera Bandara, an entrepreneur generated by the university under the first NEDA programme also shared his ideas about his success.

Programme on "Beyond the Belief- Towards a new Beginning with a Change"

The Career Guidance Unit (CGU) of Sabaragamuwa University of Sri Lanka conducted a training programme on 13th September 2018 at the Auditorium of the Faculty of Social Sciences & Languages, in order to develop the personal vision of undergraduates and to empower undergraduates to develop a personal life plan with self-motivation. The programme was conducted by Mr. Chandana Gunawardana; an expert on human skills development. The target group of the programme was the 1st year undergraduates of the university.

Entrepreneurship Development Programme 2 – 2018

Followed by the initial programme which was conducted by NEDA (National Entrepreneurship Development Authority of Sri Lanka) in March, 2018, the second programme was held successfully on 13th& 14th September 2018 at the Auditorium of the Faculty of Applied Sciences. The purpose of the programme was to give a practical exposure to the students in order to develop their business proposals writing skills. The programme was conducted by the resource panel of NEDA.

Bangladesh-Sri Lanka Youth Exchange Programme

The Career Guidance Unit successfully organized an educational programme in collaboration with the Ministry of Youth Affairs, Project Management and Southern Development upon request of the Vice Chancellor of the university. The programme was held on 11th& 12th of October 2018 at the university with the participation of ten (10) foreign delegates.

Mental Relaxation Programme

The Career Guidance Unit of Sabaragamuwa University of Sri Lanka successfully conducted a training programme for the final year undergraduates of the Faculty of Management Studies on "Stress Management & Mental Relaxation". The objective of the programme was to educate undergraduates about the importance of mental relaxation and a balance personality in their lives. This session was based on activities which allowed them to understand the importance of mental relaxation. The workshop was held on 1st November 2018 at the Auditorium of the Faculty of Management Studies of the University. The programme was conducted by Mr. Deepal Wijayasekara, Career Advisor of the University.

Notes to the Financial Statements

1. Significant Accounting Policies

1.1 General Policies

1.1.1 Reporting Entity

Sabaragamuwa University of Sri Lanka has been incorporated under the Universities Act No. 16 of 1978 and located at P.O. Box 02, Belihuloya. This is a National university which mainly operates on government funds.

1.1.2 Principal activities and nature of operations

The university primarily caters to local students in the fields of Agricultural Sciences, Social Sciences, Applied Sciences, Geomatics and Management Studies. The university promotes higher studies and research. The Faculty of Graduate Studies initiated its operations in the year 2016 and the Faculty of Technology and the Faculty of Medicine were Established in year 2018. The first intake was scheduled for 2019 January.

1.1.3 Basis of reparation

(a) Statement of Compliance

The Financial Statements comprise the statements of financial position, statement of financial performance, statement of changes in equity, cash flow statements and notes to the financial statements.

The Financial Statements of Sabaragamuwa University of Sri Lanka are prepared in conformity with Sri Lanka Public Sector Accounting Standards for the accrual basis of accounts. All accounting policies adopted by the University are applied consistently with those of the previous year, where necessary comparative figures have been adjusted to conform to the changes, in presentation of current year figures.

(b) Basis of measurement

The Financial Statements of the Sabaragamuwa University of Sri Lanka are prepared under the Historical Cost convention and do not take into account changes in money values, except where it is stated.

(c) Functional and presentation currency

The Financial Statements are presented in Sri Lankan Rupees, which is the University's functional and presentation currency.

(d) Going concern

The Financial Statements have been prepared on a going concern basis.

1.2 Assets and the basis of their valuation

1.2.1 Property, Plant & Equipment

Lands, Buildings, Laboratory and Teaching Equipment, Fixtures & Fittings, Library Books and Periodicals, Motor Vehicles, Cloaks and Other Assets include the items acquired out of government grant, research grants, internally generated funds, and donations.

a) Basis of Recognition and Measurement

Property, Plant and Equipment are recognized if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be reliably measured. Properties, plant and equipment are recorded at cost less accumulated depreciation. The cost of property, plant and equipment is the cost of purchase or construction together with any incidental expenses thereon.

b) Cost

The cost of property, plant and equipment comprises its purchase or construction cost and any directly attributable cost of bringing the assets working condition for its intended use.

c) Subsequent expenditure on existing Fixed Assets

Expenditure incurred on tangible fixed assets is charged to the Statement of Financial Performance in the period it is incurred, unless it meets one of the following criteria, in which case it is capitalized and depreciates on the relevant basis.

- Market value of fixed assets has subsequently increased.
- Asset capacity increase.
- Sustainable improvement in the quality of output or reduction in operating cost.
- Significant extension of the asset life beyond that confirmed by repair and maintenance.

d) Depreciation

Depreciation is recognized in the Statement of Financial Performance on a Straight -Line Method over the estimated useful life of Property, Plant and Equipment items from the date that they were made available for use. Lands are not depreciated. The estimated useful life periods are as follows.

Description	Estimated useful life period
Buildings	20 years
Water Treatment plant	20 years

Office and Teaching Equipment	5 years
Computer & computer accessories	5 years
Library Books and Periodicals	5 years
Communication Equipments	5 years
Motor Vehicles	5 years
Cloaks	5 years
Other Equipments	5 years

Depreciation is provided in full in the year of purchase and no depreciation is charged in the year of disposal. This method of depreciation is adopted in using the rates in the UGC circular 649 from the financial year 2006 and hope to continue in future. This method of calculation of depreciation was also approved by SUSL Council at its 117th meeting held on 20.01.2007.

This method has not been applied in the year 2018 for the commencement the faculty of Technology & Faculty of Medicine. SUSL received grants from Ministry of Higher Education and the University Grant Commission as mention in the Note No. 1.3.3. The assets which we purchased and constructed and received under these grants are not depreciated and not amortised in the year 2018 since the faculty takes their first intake in January 2019.

The insurance receivable for SGKE 9206 motor car received full in 2017.

In 2018 the water treatment plant, land & building located at Pambahinna junction was acquired by the water Supply and Drainage Board without any consideration of the university. The net book value of those assets as at 01/01/2018 is as follows.

	Cost	Depreciation	NBV
Land	Rs. 1,600,000.00	-	1,600,000.00
Water Treatment plant	Rs. 900,000.00	585,000.00	315,000.00

The land was received in 2006 as a grant. Hence, this land value is reduced from the land grant and the disposal loss of the building 315,000.00 charged to the statement of financial performances in 2018.

e) Capital Works in Progress

Capital work-in-progress is stated at cost. These are expenses of a capital nature directly incurred in the construction of property, plant and equipment awaiting capitalisation. Capital work-in-progress would be transferred to the relevant asset category in property, plant and equipment, when it is available for use i.e., when it is in the location and condition necessary for it to be capable of operating in the manner intended by the university.

1.2.2 Intangible Assets

An Intangible asset is recognized only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the university.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the assets. All other expenditure is expensed as incurred.

All intangible assets are considered to have a finite useful life and amortized using straight line method to write down the cost of intangible asset to their residual values over their estimated useful lives as follows.

- a. Computer software is amortised over a period of 5 years on straight-line basis.
- b. Cost of development of new curriculum is amortised over a period of 5 years on Straight-line basis, from the effective date of the new curriculum.

Intangible assets represent the software purchased under the HETC grant on their written down value and software purchased by the entity.

1.2.3 Curriculum Revision

The university revises the curriculum for all degree programs every five years and amendments are not made within that period. Hence, the expenditure incurred on capital funds are amortized over the five years period on the basis that the economic benefits would flow to the university during the effective period of the new syllabus. Since the Faculty of Management Studies and Faculty of Geomatics have implemented the revised curriculum w.e.f. 2015, the expenditure incurred on that are amortized w.e.f. 2015. Additionally, since the Faculty of Agricultural Sciences and the Faculty of Applied Sciences have implemented the revised curriculum w.e.f. 2016, the expenditure incurred on that are amortized w.e.f. 2016. Further the university will start to amortise the expenditure incurred for Faculty of Technology once the courses of technology faculty started.

1.2.4 Knowledge Enhancement

The expenditure incurred to enhance the knowledge of the employees is treated as capital expenditure and amortize over 5 year period.

1.2.5 Livestock

Livestock is re-valued and revaluation surplus / deficit charged to the statement of financial performance.

1.2.6 Inventories

Inventories are stated at the lower of cost and net realizable value. In general, cost is determined on a first in first out basis and includes expenditure incurred in acquiring the inventories and bringing them to their existing condition and location.

Inventories include all materials and supplies related to provision of services to the entity. Up to 2018 SUSL identified the chemical stock of laboratories of the faculty of Applied Sciences and Faculty of Agricultural Sciences as consumables. However we conduct the physical chemical stock verification of those laboratories as at 31/12/2018 and the chemical values are Rs.10,215,056 and Rs. 5,863,998 for the of Faculty of Applied Science Laboratory and Faculty of Agricultural Science Laboratory respectively. The value of Opening balances as at 01/01/2018 was recognized and restated in the year 2018 and it is disclosed in note no.1.7.

1.2.7 Receivables

Receivables are stated at the amounts they are estimated to realize.

1.2.8 University Research Grant

As per the SLPSAS 20, no intangible asset arising from research phase of an internal project shall be recognized. Expenditure on research phase activities shall be recognized as an expense when it is incurred. An intangible assets arising from development phase of an internal project shall be recognized if and only if the entity can demonstrate the recognition criteria. This Standard is adopted from the current financial year with retrospectively and hope to continue in future.

The university has allocated funds to enhance research and development activities under the annual capital budget. The total amount spent for the research phase activities are shown as an expense in statement of financial performance. The aggregate amount of research expenditure recognized as expenditure during the year of 2018 is Rs.14,772,888.00

1.2.9 Cash & cash equivalents

Cash & cash equivalents comprise cash deposits at banks.

1.3 Liabilities & Provisions

All known liabilities as at the balance sheet date are included in the financial statements and adequate provisions are made for liabilities which are known to exist but the amount of which cannot be determined accurately.

Obligations payable on demand or within one year of the balance sheet date are treated as current liabilities in the balance sheet. Liabilities payable after one year from the balance sheet date are treated as noncurrent liabilities in the balance sheet.

1.3.1 Employee Benefits

(a) Defined Benefit Plans

Defined benefit plans estimate the amount of benefit that an employee will receive on retirement

Provision for retiring Gratuity

The university has adopted the benefit plan as required under the payment of Gratuity Act No. 12 of 1983 for all eligible employees.

Defined benefit plans define an amount of benefit that an employee will receive on retirement usually dependent on one or more factors such as age, years of service and compensation. In order to meet this liability, a provision carried forward as at the reporting date, amount calculated based on an internal management assessment. Accordingly liability recognizes for the employees who have completed 5 years of service in the university system as at the reporting date. The resulting difference between brought forward provision as at the beginning of the period net of any payments made, and the carried forward provision at the end of the period is dealt with in the statement of profit and loss.

The gratuity liability are not externally funded nor actuarially valued.

(b) Defined Contribution Plans

A defined contribution plan is a post-employment plan under which an entity pays fixed contribution into a separate entity and will have no legal or constructive obligation to pay a further amount. Obligations for contributions to defined contribution plans are recognized as an expense in the statement of comprehensive income as and when they are due.

University Provident Fund (UPF), Employee Provident Fund and University Pension Fund

The university and employees, contribute 15% or 7% and 10% respectively monthly, on the salary of each employee to the University Provident Fund in line with the respective statutes and legislation in Sri Lanka and University Act. And University contributes 8% and 12% monthly on the salary of each employee to the employee Provident fund for the temporary non-academic employees. Also the university contributes 8% to the University Pension Fund monthly in respect of pensionable employees.

Employees' Trust Fund (ETF)

The university contributes 3% monthly on the salary of each employee to the Employees' Trust Fund.

1.3.2 Leases

Finance Lease

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership.

Initial Recognition and Subsequent Measurement

Initially, assets held under financial lease and financial lease liabilities are recognized as assets and liabilities in the statement of financial position at their minimum lease payments.

Subsequent lease payments are apportioned between the finance charge and the reduction of the outstanding liability using the effective interest method.

1.3.3 Accounting for Grants

Grants that compensate the University for Expenses incurred are recognized as revenue in the income statement in the same period in which the expenses are recognized. Grants that compensate the University for the Cost of an asset are recognized in the income statement on a systematic basis over the useful life of the related asset.

As per Sri Lanka Accounting Standard 20 the university adopted income approach accounting principle when identifying capital grants and donations w.e.f. 2014.01.01 and hope to continue in future.

The university has received new capital grants of Rs.50Mn and Rs.35.3Mn from the University Grant Commission for the commencement of Faculty of Technology & construction work of new staff quarters respectively while Rs.30Mn has been received from the Ministry of Higher Education for the commencement of Faculty of Medicine in the year 2018. Also the University had received Rs.25.8Mn from the Ministry of Higher Education for the furnishing of new hostels in the year 2017.

Further the Faculty of Medicine starts their operations at the building received from the Auditor General's Department Batuhena, Kuruwita as a grant from the Ministry of Higher Education; the total grant value is as follows.

- | | |
|-------------|--------------------|
| 1. Land | Rs. 16,000,000 |
| 2. Building | Rs. 169,675,000.00 |

3. Furniture & other Instruments	Rs.17,328,201.00
Total	Rs. 203,003,201.00

1.3.4 Contingent Liabilities

Below mentioned all court cases are on-going and SUSL has to incur legal fees. Some compensation cannot be estimated at the moment. Therefore, no provision has been made in the accounts with regard to liabilities arising out of litigation. On-going court cases as at the balance sheet date are stated below.

Faculty of Agricultural Sciences as a leading centre for addressing agriculture and related technology based education in the SUSL. Following aspects could be considered as key areas regarding future sustainable development goals.

During 2019-2021 period, ongoing World Bank funded project entitled “From waste to animal protein; Black Soldier Fly Larvae (BSF) production as a method of waste management and feed grade protein production, headed by the Dean, Faculty of Agricultural Sciences. This project aims at providing an eco-friendly approach to solid bio-waste management and the same time to utilize the Larvae of BSF as a substitute for fishmeal in animal feed industry, which is considered as the most expensive protein in animal feed. Moreover, remaining slurry and decomposed waste material in the BSF based manure management system is planned to be utilized as blofertilizers for crop production. Further, this project aims at uplifting the livelihood of surrounding people in the university village by

providing opportunity to sell BSF Larvae and their garbage. This multidisciplinary approach provides a long term, sustainable solution for garbage accumulation and environment conservation. Also provides a better initiative to organic agriculture which is an emerging concern in today's world to produce healthy food.

Development of Novel Beverage types with Ceylon Cinnamon

- Mainly focuses on cinnamon based value addition and finding novel technologies in food processing and preservation. This provides a better initiative to empower unemployed youth and low income communities to commercialize their farm products at a good price rather than end up with low prices due to middle involvement.
- Faculty of Agricultural Sciences mainly focuses on timely improvements in the undergraduate curriculum and subject to timely revisions with necessary improvements. It aims to provide an excellent academic background for students to cater the needs of the changing world.
- Also the Programme Review (SER) plays an important role in quality improvement in the entire teaching, learning, curriculum development, facilitation for academic activities record keeping and reflects the transparency of entire procedure.
- Faculty of Agricultural Sciences has created a Gender Cell and always concerns about the gender equity in each aspect. Representing both male and female students in same manner and promotes environment that female students have the empowerment. Also a very good student counselling and mentoring programme is ongoing throughout the academic programme. This enables student to interact with their grievances.
- Food Business Management degree programme in the Faculty of Agricultural Science provides students with a good opportunity to learn novel aspects in food related industry and address food related issues in the world.
- Study programme mainly deals with sustainable food consumption, food security, food sourenity and certification of sustainable food production technology and addressing food related issues.

14. AUDIT REPORT - 2018

Vice Chancellor
Sabaragamuwa University of Sri Lanka

Audit Report of the Sabaragamuwa University of Sri Lanka for the year ending 31.12.2018, for the Financial Statements and the legal and the regulatory requirements in compliance to the Section 12 of the National Audit Act No. 19 of 2018

1. Financial Statements

1.1 Qualified Audit Opinion

On my order in compliance to Section 12 of the National Audit Act No. 19 of 2018, repealed with the Section 154(a) of the Constitution of the Democratic Socialist Republic of Sri Lanka, the Statement of Financial Position for the year ending 31.12.2018 and the Financial Performance Statement, Equity Changes Statement, Cash Flow Statement, Notes to the financial statements and Summaries thereof, and the financial statement ending the year 31.12.2018 prepared with the important accounting standards were audited.

My opinion is that regardless of the effects from the details mentioned in the section of ‘basis for the qualified audit opinion’, financial position on 31.012.2018, financial performance at the end of the said period and the cash flow showed actual and justifiable status in compliance with the accounting standards of the state sector.

1.2 Basis for the qualified opinion

- (a) As per the National Accounting Standards No.2, it was mentioned the payment of Rs. 317,927,747 as Rs. 315,740.727 for the purchase of properties and equipment in the Cash Flow Statements under the, resulting a deficit of Rs. 2,187,020 from the cash generated from the investment operations for the year of review. Furthermore, an amount of Rs. 680,825 paid for the purchase of livestock products was not mentioned in the Investment Operations of the Cash Flow Statement.
- (b) Due to the absence of annual review of the effective life span of the non-current assets, which are used, worth Rs. 760,570,621 as per the National Accounting Standards No. 07, actions had not been made to account the differences of the accounting estimates of same as per the National Accounting Standards No. 03.
- (c) No actions taken to include the account the values of the donations in the categories of medical and office equipment of 59 no. and the commodities of 12 nos. given by the outsider for the Medical Faculty in the year reviewed.

- (d) No actions were taken to include in the accounts of the office and teaching equipment purchased worth Rs. 64,080 and the depreciation value of Rs. 12,816 for the same, relevant to the Faculty of Graduate Studies in the year reviewed.
- (e) No accounts adjustments were made to the over estimates of the balance payable arised from the estimated recurrent expenditure of Rs. 3,088,147 out of which actually paid was Rs. 2,176,108 relevant to the Center for Open and Distance Learning.

1.3 Responsibilities of the management and the controlling parties with regard to the financial statements.

The responsibility of the management is to decide the internal control to facilitate the preparation of these financial statements without any false statements resulted from frauds and errors and to prepare in compliance to the accounting standards of the state sector and produce in justifiable manner.

When preparing the financial statements it is the responsibility of the Sabaragamuwa University of Sri Lanka to certify the ability to run the institution continuously or apart from the effect that if the management is decided to close the institution or the unavailability of an alternative to hold the operations, the responsibility of the management is to disclose the facts relevant to the continuous run the institution and keep the accounts based on the same status.

The administrative parties of the Sabaragamuwa University of Sri Lanka are responsible for the process of the financial reporting.

As per the sub clause 16(1) of the National Audit Act No. 19 of 2018, appropriate ledgers and the reports are to be maintained with regard to the revenues, expenditures, assets and liabilities, in order to prepare the annual and quarterly financial reports.

1.4 The auditor's responsibility of the auditing of financial statements.

My objective is to issue the auditor's report with my opinion and justified certification to the effect that the financial statements are free of frauds and quantifiable false statements due to errors.

I've audited with professional decree and the apprehensive in compliance to the Sri Lanka Auditing Standards. Furthermore, the basis for my audit option was to plan appropriately and well-judged the audit procedure to the identification of the risks and assessing of the same those that are resulted from the frauds and the quantitative error statements in the financial statements and avoid the mentioned risks by obtaining the sufficient and suitable audit evidences. The consequence from a fraud is more than that of quantifiable error statements where preparations of false documents, non-association, intentional avoidance or averting of internal control are resulted to a false.

Even though, the awareness was taken to identify the internal control of the university to plan the appropriate and well-judged audit procedures, no intension to declare the effectiveness of the internal control.

It was appreciated the appropriateness of the disclosure of facts and the connected details by the management and the justifications of the accounting estimates and the accounting policies adopted.

On the basis of the audit evidences obtained for the quantifiable uncertainty of the sustainability of the institution due to the incidences and the status of the continuity, the relevancy of the accounts for the base for the sustainability of the institution was decided. If I decided that there is sufficient doubt, it should be attended to disclose in the audit report or if the disclosures are insufficient the opinion of mine should be modified. However, the continuity of the institution may end up with the future incidences or status.

Appreciated the structure, contents and the present of the disclosed financial statements and the appropriately and justifiably inclusion of the connected transactions and incidences thereof.

The relevant controlling parties were awakened with regard to the failures of the main internal controls and the important audit findings of the audit done by me.

2. The report on the other legal and regulatory necessities.

Special provisions are available in the National Audit Act No. 19 of 2018 for the following necessities.

(g) The estimated recurrent expenditure for the review period was Rs. 1,136.22 million but, actual expenses were Rs. 1,363.71 million resulting expenses of Rs. 227.49 million or 20% over and above the estimation, while the actual capital expenditure was Rs. 42.3 million or 9% of the estimated capital expenditure was Rs. 492 million and no amended budget was present.	The estimated allocation for the year 2018 was Rs. 1,136.22 million where Rs. 1120 million was treasury allocation while Rs. 16.22 was from the other revenues of the University. Due to the state policies affected for the increase of the salary and allowances and the new recruitments, the government provided Rs. 1,235 million, without the intervention of the University as at the end of the year. Though the University estimated Rs. 16.22 million, we were able to increase Rs. 47.8 million as revenue. Accordingly, we were able to increase the allocation from Rs. 1,136.22 million to Rs. 1,282.8 million as the increase of Rs. 146.6 million or 11%. Thereby, the actual expenditure was Rs. 1,363.71 million. Hence, 6% is the actual expenditure over and above the actual revenue and considered as general in the sense. Therefore, the audit opinion is incorrect. The estimated capital allocation was Rs. 415.90 million. The utilization of the same was Rs. 492.3 million in contrast to the auditor's value of Rs. 415.90 million. This is an increase by 9% or the development of 109% over and above the budgetary allocations. The reasons behind the same were the ability to complete the contracts within the period, rehabilitations under the capital expenses were completed within the period and the capital goods were purchased during the expected periods.
